

rhythm EXTREME

What do trash cans, brooms, automobiles, BBQ grills, surgical equipment, computer keyboards, hockey sticks, prescription bottles, and bags of potato chips have in common? They are just a few of the hundreds of everyday items that *Rhythm Extreme* has used to create their infectious beat.

Rhythm Extreme is a percussion/dance show that delivers an intricately orchestrated performance in the style of such well-known acts as "Stomp", "Tap Dogs" and "Blue Man Group". Whether it's a full-length show or short customized segments for corporate events, Rhythm Extreme's creative performances are just plain fun; crashed, banged, tapped, kicked and slammed into your subconscious!

Rhythm Extreme is successful because virtually every show is different, and clients love to see their own products or business environment turned into a rhythmic extravaganza. With troupes based in both L.A. and Orlando, they perform around the world for corporate audiences, theme park & casino guests, and special events.

So get ready for an explosion of sound. ***RHYTHM EXTREME IS PERCUSSION ON THE MOVE!***
