

Spectacle de la Lune

Spectacle de la Lune is an elegant aerial act performed from a 25-foot diameter Helium balloon. Our aerial artist performs a 5 minute chiffon act suspended 50 to 75 feet above the ground. The performance is choreographed to music and can be customized to fit your theme.

Its debut performance was witnessed by more than 1,200 attendees of *The Special Event*, the event industry's top tradeshow and convention, held at the Arizona Science Center in Phoenix.

Since then Spectacle has been seen:

- Floating high over the pool at the Venetian Hotel in Las Vegas
- Soaring overhead the Boston Pops Symphony in front of 10,000 residents of Nantucket
- and most recently they were selected by Cirque Du Soleil themselves to participate in the grand opening party celebrating the debut of "Zumanity".

Spectacle de la Lune is truly "***Grace in Motion***".

Specifications:

The performance fee includes: Balloon rental, shipping, helium cost, technician, setup and strike labor, rigger, artist, choreography, producer, airfare and local transport.

Client to provide: Electrical power, sound system support and extraordinary lighting support (gobos, follow spot light etc.), and hotel rooms.

Other information: The desired operating area required is approximately 100' x 100' of clear space. Windy conditions can affect the ability to perform this act. Maximum safe operating wind speed is 15 mph.
